### **A HELPFUL LIST OF THINGS YOU SHOULD KNOW:**

- √ The content of all Denyse's talks can be completely personalised based on your meeting's theme, location, current events and audience.
- √ All of Denyse's programs can also be customized for time to fit in with your needs now or on the day.
- √ An introduction will be provided and should be read out prior to Denyse coming on stage.
- √ Generally, Denyse uses PowerPoint and often included videos. Therefore, screens and audio should be provided for an optimal experience wherever the audience is sitting.
- √ Denyse will sign books in advance (to keep to the time schedule) and sell them at the back of the room or outside in the reception area of the event. Books can also be purchased in advance at a preferential rate.
- √ A Deep Dive Breakout session after the keynote is often very popular.
- √ Denyse loves to partner with event organisers so she not only meets but surprises and delights their desires for their event. As an active publisher on many social media channels, with thousands of followers, she loves publicising her events to increase the excitement and anticipation – but of course will refrain when requested too.
